

## CHÂTEAU DU MOULIN-À-VENT

### 2019 CHAMP DE COUR, MOULIN-À-VENT

**Tasting Notes** / The deep red color of the wine offers the first hint of its massive concentration. The nose is an explosion of red fruit, with roasted and spicy (pepper and saffron) notes. A full-bodied wine of considerable elegance, lively tannins and superb length, with a mineral finish.

**Vintage Report** / A very sunny, very positive vintage. Frost in early April as well as summer heatwaves led to low yields. Harvest took place later than usually. Overall, balanced and aromatic fine wines were produced.

**Terroir** / Champ de Cour is located on a slight slope between the hills of the windmill and of Fleurie, with an eastern exposure, sheltered from the winds. The granite surface rocks force the roots to dig down deeply to seek their nutrients. Its clay-rich soil contains five minerals, giving the wine its unique character.

**Varietal** / 100% Gamay Noir

**Vineyard** / 'Champ de Cour' stands at the bottom of the hill below the windmill. The top soil is deep and heavier than in the rest of the appellation, it retains more water which scarcely stops the ripening process.

**Vineyard Size** / 3.3 hectares (8.1 acres)

**Soils** / Deep granitic soils, rich with clay

**Vine Age** / 35-year old vines

**Vine Density** / 10,000 vines/hectare (4,047 vines/acre)

**Viticulture** / Lutte raisonnée ("reasoned protection"): natural soil amendments, manual weed control and integrated pest management.

**Yields** / 25 hectoliters per hectare (less than 2 tons per acre)

**Harvest** / Manual harvest from September 11 – September 18, in small 30-liter containers; two sorting tables positioned before the destemmer.

**Vinification** / 75% whole cluster; pumping-over during cold pre-fermentation soak and at the end of fermentation to increase roundness and finesse. Punching the cap at the beginning of fermentation.

**Aging** / 13 months; 20% French oak barrels, 80% stainless steel, then six months in stainless steel tank before bottling, oak chosen from the Allier and Vosges forests.

**Alcohol** / 13.0%

**Cellaring Potential** / 9+ years, with gradual development over the years. Younger wines should be poured into a carafe one hour before serving.
